Little HOBbits Preschool

Session 1 and Session 2: 9:30am-11:25am

Instructor's Name: Mrs. Amy Barriga
Class Skill Level: Preschool (ages 2.5-5 years) **Must be completely potty trained.*

Class Description:
Welcome to our engaging and hands-on preschool class, where young learners explore the world through play, creativity, and discovery! Each week, we will dive into fun themes that spark curiosity, encourage social development, and build foundational skills in literacy, math, and science.

Children will enjoy stories, songs, sensory play, crafts, and interactive activities designed to nurture a love of learning. Through group activities and hands-on exploration, students will develop fine and gross motor skills, practice teamwork, and gain confidence in a structured yet playful environment.

Join us for a joyful learning experience where every child is encouraged to grow, explore, and have fun!

Student Supply List
Backpack
Small Nut-FREE snack and drink|
Complete change of labeled clothing
If you are staying for lunch and recess pack a Nut & Seafood free Lunch.

Supply Fee
$65.00
Monthly Cost
$75.00

OTHER PRESCHOOL CLASS OPTIONS:

Little Bakers
Session 3: 12:30pm-1:25pm
Instructor's Name: Mrs. Charlotte Stevens
Class Skill Level: Preschool & Early Elementary (ages 4-8 years)

Description
In this hands-on baking class, young learners will roll up their sleeves, get messy, and discover the joy of creating delicious treats from scratch! Designed for preschool and early elementary students, each session combines fun kitchen skills with early learning concepts—measuring ingredients becomes a math lesson. Mixing and pouring build fine motor skills, and following a recipe encourages

listening and sequencing.

Children will explore a variety of simple, kid-friendly recipes such as muffins, cookies, breads, and seasonal favorites, while also learning about kitchen safety, healthy food choices, and the science behind baking. Every class ends with a tasty reward they can proudly say, “I made it myself!”

This class is perfect for little ones who love to help in the kitchen, and it provides a nurturing environment for creativity, confidence, and connection.

Supply Fee: $40.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Little's Nature Art
Session 4: 1:30pm-2:25pm
Instructor's Name: Mrs. Lauren Dunning
Class Skill Level: Preschool & Early Elementary (ages 4-8 years)

Course Description
In this hands on, sensory rich class, our youngest learners will bridge the gap between the great outdoors and their own imagination. Each week, we will dive into a new "treasure" from nature: sticks, stones, leaves, and mud. We will discover how the world around us can be our most vibrant art studio. At this age, the process is more important than the product. Students will develop fine motor skills through tearing, gluing, painting, and sculpting, all while fostering a deep appreciation for the environment.

Supply List
Smock or Old T-Shirt

Supply Fee: $30.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Early Elementary Classes
K-3rd Grade

Math In Motion
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Lauren Dunning
Class Skill Level: K-3rd
First Semester

Course Description
Forget the flashcards! This class is designed to show young learners that math isn't just a page in a workbook, it's a language we use to build, play, and solve mysteries. Math in Motion focuses on "living math," using hands-on manipulatives, physical movement, and collaborative building projects to master foundational concepts.

Each week, we will tackle a "Mission of the Day" that requires counting, measuring, or geometric thinking to complete. By turning abstract numbers into tangible objects, we help students develop a strong number sense and confidence!

Supply Fee: $30.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Hands-on History: The American Revolution
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Lisa Heilenman
Class Skill Level: k-5th
1st Semester
Textbook: Instructor Provided

Description:
Our American history studies are designed to create a hands-on learning experience that drives the lessons home in a fun way! Our third in the series, ***The American Revolution***, contains 25 lessons covering the politics and conflicts that launched a new nation, such as: Colonial beginnings, the French & Indian War, problems leading up to the revolution, Continental Congress, General Washington, women of the war, several specific battles, many important figures who stood for the cause of liberty, and much more!

Homework: There may be light weekly homework for the children.

Supply Fee: $30.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

America's History Through Picture Books
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Michelle McCarthy
Class Skill Level: K-5th
1st Semester

Class Description
Students will explore important people and moment in U.S. history through engaging picture books. Each class includes a read-aloud, thoughtful discussion, and a simple hands o-on craft connected to the historical theme.

Supply Fee: $50.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Wild Wonders: Zoo & Aquarium Adventures
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Melissa Cox
Class Skill Level: K-5th
Full Year

Description:
Animal Habitat Explorers is an engaging, educational class where students study a variety of animals found in zoos and aquariums while learning about the natural habitats they represent. Each week, students will explore animal characteristics, diets, behaviors, and environmental needs, gaining a deeper understanding of how animals live and how their habitats are recreated in human care.

Students will keep an ongoing animal journal to record observations, vocabulary, drawings, and key facts, helping to reinforce learning and build research and writing skills. Through structured activities and guided discussions, this class encourages curiosity, scientific thinking, and a growing appreciation for the diversity of the animal world.

Supply Fee: $50.00
Class Cost: $270.00

Monthly Installment: $30.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Little Bakers
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Charlotte Stevens
Class Skill Level: Preschool & Early Elementary (ages 4-8 years)
1st Semester

Description
In this hands-on baking class, young learners will roll up their sleeves, get messy, and discover the joy of creating delicious treats from scratch! Designed for preschool and early elementary students, each session combines fun kitchen skills with early learning concepts—measuring ingredients becomes a math lesson, mixing and pouring build fine motor skills, and following a recipe encourages listening and sequencing.

Children will explore a variety of simple, kid-friendly recipes such as muffins, cookies, breads, and seasonal favorites, while also learning about kitchen safety, healthy food choices, and the science behind baking. Every class ends with a tasty reward they can proudly say, “I made it myself!”

This class is perfect for little ones who love to help in the kitchen, and it provides a nurturing environment for creativity, confidence, and connection.

Supply Fee: $40.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Little Leaders: Sharing and Caring
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Melissa Cox
Class Skill Level: K-3rd
1st Semester

Little Leaders: Sharing and Caring is a fun and engaging class designed to help young learners build strong social skills through play and interaction. Students will practice sharing and teamwork through cooperative games and participate in show-and-tell to build confidence and communication skills. With a focus on kindness, listening, taking turns and sharing as well as working together, this class creates a supportive environment where children learn how to be thoughtful friends and positive team members.

Supply Fee: $15.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Little's Nature Art
Session 4: 1:30pm-2:25pm

Instructor's Name: Mrs. Lauren Dunning
Class Skill Level: Preschool & Early Elementary (ages 4-8 years)
1st Semester

Course Description
In this hands on, sensory rich class, our youngest learners will bridge the gap between the great outdoors and their own imagination. Each week, we will dive into a new "treasure" from nature: sticks, stones, leaves, and mud. We will discover how the world around us can be our most vibrant art studio. At this age, the process is more important than the product. Students will develop fine motor skills through tearing, gluing, painting, and sculpting, all while fostering a deep appreciation for the environment.

Supply List
Smock or Old T-Shirt

Supply Fee: $30.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Elementary Drama Class
Session 4: 1:30pm-2:25pm

Instructor's Name: Mrs. Dena Robert
Class Skill Level: Early and Upper Elementary (ages 5-12)
1st Semester

Course Description
An educational, creative, and collaborative environment where students learn acting techniques, voice control, movement, and performance skills through improvisation, scenes, and theatre games. Focused on building confidence, empathy, and communication skills. There will be a play at the end of the semester!

Supply Fee: $50.00
Class Cost: $100.00

Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Upper Elementary
Grades 4th-6th

Discovery Lab: Hands-On Science
Session 1: 9:30am-10:25am

Instructor's Name: Mr. Alan Lombardo
Class Skill Level: 4th-8th
1st Semester

Class Description:
Get ready to think, build, test, and discover! Science Explorers is an engaging, hands-on class designed for students ages 9–12 who love to ask questions and learn by doing. Each week, students will dive into exciting areas of science such as chemistry, physics, earth science, and life science through interactive experiments and creative projects.

From mixing safe chemical reactions and building simple machines to exploring ecosystems and investigating forces like motion and energy, students will experience science in a fun and meaningful way. This class encourages curiosity, critical thinking, and teamwork as students make observations, form hypotheses, and learn how the world around them works.

Perfect for budding scientists, this class turns learning into an adventure—where it's okay to get a little messy while discovering big ideas!

Please note: Due to the nature of these experiments, younger students must demonstrate a certain level of maturity or may be removed from the class.

Supply Fee: $50.00
Class Cost: $140.00
Monthly Installment: $35.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Hands-On History: The American Revolution
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Lisa Heilenman
Class Skill Level: K-6th
1st Semester

Tea-Time Together: Poetry, Music and Art
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Kelly Olwell
Class Skill Level: 4th-8th
1st Semester

Description
Step into a cozy and enriching time of creativity and culture! In this delightful class, students will enjoy art, music, and poetry appreciation while sharing tea and a light snack in a relaxed, welcoming atmosphere.

Each month, we will focus on a featured artist, poet, and musical composer, exploring their works and discovering what makes each one unique. Through guided discussion, listening, and simple creative activities, students will gain a deeper appreciation for the beauty of the arts.

This class is perfect for students who enjoy a calm, thoughtful environment where creativity, conversation, and culture come together over tea.

Supply Fee: $40.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Beginning Spanish
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Michelle McCarthy
Class Skill Level: 4th-8th
Full Year

Description:

Class Description
This class introduces our younger students to the Spanish language through speaking, listening,

reading, and light writing activities. Students will learn basic vocabulary, pronunciation, and simple sentence structures while practicing common conversational phrases. Lessons will include games, partner practice, hand-on activities and simple crafts, and cultural exploration of Spanish-speaking countries. No prior Spanih experience is required.

Supply List
1 -3 Prong Folder

Supply Fee: $50.00
Course Cost: $225.00
Monthly Installment: $25.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

S.M.Art Class
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Lisa Heilenman
Class Skill Level: 4th-6th
Full Year

Description:
Join us as we explore the exciting connection between art, science, and math! In this hands-on class, students will use creativity to better understand important STEM concepts while making unique and engaging works of art.

For science, we will explore topics such as energy and motion, electricity and magnetism, living science, chemical reactions, and the science of color and light—all through fun, art-based projects.

For math, students will work with graphs and grids, numbers and equations, and symmetry to create visually stunning pieces. We will also dive into geometric art, cultural math-inspired designs, and even edible math art!

This class is perfect for curious learners who enjoy creating, experimenting, and discovering how art can bring science and math to life.

Supply Fee: $30.00
Course Cost: $270.00
Monthly Installment: $30.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

LEGO Building and Programming II
Session 4: 1:30pm-2:25pm

Instructor's Name: Mrs. Tracy Gisselquist & Mrs. Lisa Heilenman
Class Skill Level: AGES 9-14
1st Semester

Description
The FIRST Lego League Programming 2 class is an exciting, hands-on STEM course designed for students aged 9 to 14. This class encourages participants to engage in real-world engineering problems by designing, building, and programming LEGO robots to complete tasks and challenges. The students will alternate between learning new building methods and advancing their programming knowledge. The kids will be given new challenges each week to help improve their programming and building skills in a fun, interactive environment. What Students Will Learn: · Robotics & Engineering – Build and program LEGO robots to solve real-world challenges. · Critical Thinking & Problem-Solving – Develop logical reasoning and troubleshooting skills. · Coding & Design – Learn programming concepts and innovative design techniques. Through teamwork, creativity, and hands-on learning, students will gain valuable STEM experience while having fun! Though this class is meant to be a continuation of lessons learned during the Lego League Challenge class, previous experience is not required.

*Lego Spike Prime kits and laptops will be provided for use in each class. If a student has a personal laptop, they may download the Lego Spike app and use it during class.

Supply Fee: $50.00
Class Cost: $200.00
Monthly Installment: $50.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Elementary Drama Class
Session 4: 1:30pm-2:25pm

Instructor's Name: Mrs. Dena Robert
Class Skill Level: K-6th
1st Semester

Description

An educational, creative, and collaborative environment where students learn acting techniques, voice control, movement, and performance skills through improvisation, scenes, and theatre games. Focused on building confidence, empathy, and communication skills. There will be a play at the end of the semester!

Supply Fee: $50.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Gameschooling
Session 4: 1:30pm-2:25pm

Instructor's Name: Mrs. Esther Frankenfield
Class Skill Level: 4th-6th
1st Semester

Class Description
This class uses games as a tool to reinforce foundational academic and life skills in a low-pressure, engaging environment. Students will participate in a variety of structured and open-ended games designed to support learning in areas such as math, reading, logic, and social interaction. Games will be intentionally selected to promote: Critical thinking and problem-solving Number sense and early math skills Reading and language development Turn-taking, patience, and teamwork This class is ideal for students who benefit from hands-on, movement-based, or alternative learning approaches.

Supply Fee: $20.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

MIDDLE SCHOOL

Grades 6th-8th

Algebra 2
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Tracy Gisselquist
Class Skill Level: Middle School & High School
Textbook: See Description
Full Year

Course Description
Factoring Polynomials, Quadratic Formula, Graphing Conic Sections, and Other Algebra 2 Topics Algebra 2 is a more rigorous algebra course that builds on the previous two courses. Besides review and expansion of topics taught in Algebra 1, the course covers advanced factoring, imaginary and complex numbers, conjugate numbers, the binomial theorem, the quadratic formula, motion problems, and other kinds of application problems. Graphing includes extensive practice with conic sections and solving systems of equations visually and algebraically. Vectors are also introduced.

Emergency Response and First Aid with CPR/AED
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Heather Sheffer
Class Skill Level: Middle School & High School
1st Semester

Course Description
The Emergency Response & First Aid course is designed to empower students with the knowledge, skills, and confidence to recognize and respond to medical emergencies. Through a mix of hands-on, scenario-based training and lectures, students will learn to act as crucial intermediaries between the

onset of an emergency and the arrival of professional medical help. For practical applications, we will utilize manikins and simulation materials to practice CPR and AED use.

This course does not provide official certification in CPR but prepares students for real life scenarios.

Student Supply List
Notebook, pencil

Supply Fee: $50.00
Class Cost: $140.00
Monthly Installment: $35.00

Cardboard Creations Lab: Build, Design, Create
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Laurie Tiemens
Class Skill Level: Middle School & High School
1st Semester

Course Description

Cardboard Creations Lab: Build, Design, Create

What if your student could turn a simple piece of cardboard into something incredible—a working machine, a creative sculpture, or a clever solution to a real-world challenge? Cardboard Creations Lab is a hands-on, imagination-fueled class designed for middle and high school students who love to build, experiment, and think outside the box (sometimes literally!).

This class transforms an everyday material—cardboard—into a powerful tool for creativity, problem-solving, and design thinking. Students don't just make things; they learn how to think like builders. Each session introduces practical construction techniques and then challenges students to apply those skills in fun, open-ended ways.

Students will explore a wide range of building methods, including structural reinforcement, joints and connections, cutting and scoring techniques, hinges, moving parts, and simple mechanical systems. They'll learn how to make their creations stronger, more functional, and more visually appealing skills that translate into engineering, art, and real-world problem solving.

But this isn't a step-by-step craft class. Instead, students are given creative challenges that push them to experiment, adapt, and innovate. One week, they might design a bridge that can hold weight. Another week, they could build a marble run, a piece of wearable cardboard armor, or a device that solves a quirky "real-life" problem. There's no single "right" answer—just opportunities to test ideas, learn from mistakes, and improve designs.

The class environment is intentionally relaxed, encouraging students to take risks without fear of failure. Mistakes aren't just allowed—they're expected and celebrated as part of the creative process. This approach helps students build resilience, confidence, and a willingness to try new things.

Because students learn in different ways, lessons are designed to engage visual, auditory, and hands-on learners. Demonstrations, quick mini-lessons, and live builds are paired with plenty of time to create, test, and refine. Students also have opportunities to collaborate, share ideas, and draw inspiration from each other's work.

One of the biggest advantages of Cardboard Creations Lab is that it requires very little homework. Nearly all building happens during class time, where students have access to guidance, materials, and peer support. This makes it a great fit for busy families and students who already have full schedules—but still want a creative outlet.

Beyond the fun, this class develops valuable life skills. Students practice problem-solving, spatial reasoning, planning, and resourcefulness. They learn how to work through challenges, manage time during projects, and turn abstract ideas into tangible results. These are the same skills used in fields like engineering, architecture, design, and entrepreneurship—just taught in a way that feels like play.

Parents love seeing their students excited to share what they've built. Teen's love having a space where they can create freely without pressure or perfectionism. By the end of the course, students won't just walk away with a collection of cool projects—they'll leave with a new way of thinking: the ability to look at ordinary materials and see extraordinary possibilities. Sometimes, the simplest materials spark the biggest ideas.

This is a one semester class. Very little homework is required.

Student Supply List
Lined paper
writing utensil

Supply Fee: $25.00
Class Cost: $200.00
Monthly Installment: $50.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Personal Finance
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Esther Frankenfield
Class Skill Level: Middle School & High School
1st Semester
Textbook: See Description

Course Description
This course introduces students to foundational personal finance concepts through practical application and discussion. Students will explore topics such as budgeting, saving, spending, debt, income, and financial decision-making. The goal of this class is to equip students with the knowledge and habits needed to manage money responsibly and confidently in everyday life.

Topics may include:
Needs vs. wants
Budgeting basics
Saving and goal setting
Introduction to earning and income
Smart spending and comparison shopping
Basic understanding of debt and interest
No prior experience required.

Student Supply List

Students should have a notebook, pens/pencils, and access to a calculator.

Supply Fee: $15.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Tea-Time Together: Poetry, Music & Art
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Kelly Olwell
Class Skill Level: Middle School & High School
Textbook: See Description

Course Description
Step into a cozy and enriching time of creativity and culture! In this delightful class, students will enjoy art, music, and poetry appreciation while sharing tea and a light snack in a relaxed, welcoming atmosphere.

Each month, we will focus on a featured artist, poet, and musical composer, exploring their works and discovering what makes each one unique. Through guided discussion, listening, and simple creative activities, students will gain a deeper appreciation for the beauty of the arts.

This class is perfect for students who enjoy a calm, thoughtful environment where creativity, conversation, and culture come together over tea.

Supply Fee: $40.00
Class Cost: $120.00
Monthly Installment: $30.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Adulting 101: Real-Life Skills for Confident Teens
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Tracy Gisselquist
Class Skill Level: Middle School & High School
Textbook: See Description

Course Description
What if your teen could graduate high school already knowing how to manage their time, cook real meals, communicate clearly, and handle everyday responsibilities with confidence? *Adulting 101* is a practical, engaging class designed to do exactly that.

This course equips high school students with essential life skills they need to thrive beyond the classroom—whether they're heading to college, entering the workforce, or pursuing a path of their own. Instead of learning by trial and error, students gain hands-on experience in a supportive, low-pressure environment where mistakes are part of the process and growth is the goal.

Each week, students explore real-world topics that truly matter. We begin with time management and goal setting, helping teens learn how to balance responsibilities, avoid overwhelm, and follow through on their plans. Students practice breaking big goals into manageable steps, prioritizing effectively, and building routines that work for their individual needs—including strategies that support ADHD and other neurodivergent learning styles.

The course then moves into communication skills—how to hold conversations, advocate for themselves, navigate conflict, and make a strong impression in both personal and professional settings. These are lifelong skills that impact every area of life, yet are rarely taught directly.

Students will also develop confidence in independent living. They'll learn how to prepare simple, affordable meals, plan a week's worth of food, and navigate a grocery store without overspending. Lessons include reading labels, comparing prices, and making smart choices on a budget.

We don't skip the everyday essentials. Teens will learn how to manage laundry, maintain a clean and functional living space, and develop systems that keep chores from piling up. These practical, step-by-step lessons are often eye-opening and immediately useful.

As students begin thinking about their future, we guide them through job applications and basic workplace skills. They'll learn what employers look for, how to present themselves professionally, and how to approach opportunities with confidence. The course also introduces the logistics of independence, including housing, budgeting for living expenses, and transportation options such as driving, public transit, and ridesharing.

Finally, students will learn essential first aid and safety basics, equipping them to respond calmly and effectively in common emergency situations.

What sets *Adulting 101* apart is its interactive, student-centered approach. Lessons engage a variety of learning styles—visual, auditory, and hands-on—through role-playing, real-life simulations, collaborative challenges, and practical exercises that make learning stick.

Parents appreciate that this class fills in the gaps traditional education often leaves behind. Teens appreciate that it's genuinely useful—and even fun.

By the end of the course, students won't just know what to do, they'll feel confident doing it. They'll leave with practical skills, greater independence, and a clearer understanding of how to navigate the responsibilities of adulthood.

This is a full-year (2-semester) high school class. Homework is required.

Supply Fee: $25.00
Course Cost: $450.00
Monthly Installment: $50.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Beginning Spanish
Session 3: 12:30Pm-11:25pm

Instructor's Name: Mrs. Michelle McCarthy
Class Skill Level: 4th-8th
Full Year
Textbook: See Description

Course Description

Class Description
This class introduces our younger students to the Spanish language through speaking, listening,

reading, and light writing activities. Students will learn basic vocabulary, pronunciation, and simple sentence structures while practicing common conversational phrases. Lessons will include games, partner practice, hand-on activities and simple crafts, and cultural exploration of Spanish-speaking countries. No prior Spanih experience is required.

Supply List
1 -3 Prong Folder

Supply Fee: $50.00
Course Cost: $225.00
Monthly Installment: $25.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Studio Art: Printmaking & Visual Communication
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Carina Wheat
Class Skill Level: 4th-8th
Full Year

Course Description
This full-year studio art course explores printmaking as both a fine art tradition and a powerful tool for visual communication. Students will learn foundational techniques including relief printing, monoprinting, collagraph, stencil/screen methods, and experimental processes. Emphasis is placed on craftsmanship, composition, contrast, symbolism, and personal voice.

During the second semester, students expand their work into mixed media, publication design, and concept-driven projects. Students maintain a process journal, participate in critiques, study historical and contemporary print artists, and develop a cohesive final portfolio.

Supply Fee: $75.00
Course Cost: $315.00
Monthly Installment: $35.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

LEGO Building and Programming II
Session 4a: 1:30pm-2:25pm

Instructor's Name: Mrs. Tracy Gisselquist & Mrs. Lisa Heilenman
Class Skill Level: Ages 9-14
1st Semester

Class Description
The FIRST Lego League Programming 2 class is an exciting, hands-on STEM course designed for

students aged 9 to 14. This class encourages participants to engage in real-world engineering problems by designing, building, and programming LEGO robots to complete tasks and challenges. The students will alternate between learning new building methods and advancing their programming knowledge. The kids will be given new challenges each week to help improve their programming and building skills in a fun, interactive environment. What Students Will Learn: · Robotics & Engineering – Build and program LEGO robots to solve real-world challenges. · Critical Thinking & Problem-Solving – Develop logical reasoning and troubleshooting skills. · Coding & Design – Learn programming concepts and innovative design techniques. Through teamwork, creativity, and hands-on learning, students will gain valuable STEM experience while having fun! Though this class is meant to be a continuation of lessons learned during the Lego League Challenge class, previous experience is not required.

*Lego Spike Prime kits and laptops will be provided for use in each class. If a student has a personal laptop, they may download the Lego Spike app and use it during class..

Supply Fee: $50.00
Class Cost: $200.00
Monthly Installment: $50.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Cooking: Level II
Session 4b: 1:30pm-3:00pm

Instructor's Name: Ms. Sandy Dixon
Class Skill Level: Middle School & High School
Full Year

Class Description
This hands-on cooking class introduces students to basic kitchen skills, food safety, and simple recipe preparation in a fun and supportive environment. Students will learn how to follow recipes, measure ingredients, and prepare a variety of dishes while gaining confidence in the kitchen. Emphasis is placed on teamwork, creativity, and trying new foods. Throughout the course, students will explore different types of cuisine and develop practical skills they can use at home. **- Previous students only, unless special arrangements are made with Ms. Sandy.**

Supply Fee: $50.00
Course Cost: $315.00
Monthly Installment: $35.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Fiber and Textile Arts Studio: Construction, Craft & Creative Design
Session 4b: 1:30pm-3:00pm

Instructor's Name: Mrs. Carina Wheat
Class Skill Level: Middle School & High School
Full Year

Class Description
This intermediate-to-advanced course builds on basic sewing skills while introducing students to the broader world of textile arts. In addition to garment and project construction, students will explore fabric manipulation, handwork techniques, fiber identification, and surface design methods such as simple dyeing and embellishment.

Students will strengthen their construction skills while learning how textiles are created, altered, and transformed. The course balances structured instruction with creative exploration and culminates in finished projects that showcase both technical ability and artistic development.

By the end of this course, students will:
- Demonstrate intermediate sewing and garment construction skills
- Identify and understand natural and synthetic fibers
- Analyze fabric structure (woven vs knit, grain, drape, weight)
- Apply fabric manipulation techniques
- Explore surface design methods (dyeing, hand embroidery, texture)
- Develop original textile-based design concepts
- Complete at least 3–4 finished portfolio projects
- Present and critique work using appropriate textile vocabulary

**Class is open to students who have completed 2 full prior semesters of Intro to Sewing or who have equivalent experience.

Supply Fee: $75.00
Course Cost: $315.00
Monthly Installment: $35.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

High School Classes
9th-12th Grade

Algebra 2
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Tracy Gisselquist
Class Skill Level: Middle School & High School
Full Year
Textbook: See Description

Course Description
Factoring Polynomials, Quadratic Formula, Graphing Conic Sections, and Other Algebra 2 Topics
Algebra 2 is a more rigorous algebra course that builds on the previous two courses. Besides review

and expansion of topics taught in Algebra 1, the course covers advanced factoring, imaginary and complex numbers, conjugate numbers, the binomial theorem, the quadratic formula, motion problems, and other kinds of application problems. Graphing includes extensive practice with conic sections and solving systems of equations visually and algebraically. Vectors are also introduced.

Student Supply List

Math-u-See Algebra 2 Student Workbook and Test book Math-u-See Algebra 2 Teacher Manual
Scientific Calculator Graph Paper Ruler
Textbook ISBN: 978-1-60826-343-1, 978-1-60826-349-3, 978-1-60826-039-3

Supply Fee: $20.00
Course Cost: $315.00
Monthly Installment: $35.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Emergency Response and First Aid with CPR/AED
Session 1: 9:30am-10:25am

Instructor's Name: Mrs. Heather Sheffer
Class Skill Level: Middle School & High School
1st Semester

Course Description
The Emergency Response & First Aid course is designed to empower students with the knowledge, skills, and confidence to recognize and respond to medical emergencies. Through a mix of hands-on, scenario-based training and lecture, students will learn to act as crucial intermediaries between the onset of an emergency and the arrival of professional medical help. For practical application, we will utilize manikins and simulation materials to practice CPR and AED use.

This course does not provide official certification in CPR but prepares students for real life scenarios.

Student Supply List
Notebook, pencil

Supply Fee: $50.00
Class Cost: $140.00
Monthly Installment: $35.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

High School Spanish 1
Session 1: 9:30am-10:25am

Instructor's Name: Mrs.Kelly Olwell
Class Skill Level: Middle School & High School

Full Year
Textbook: See Description

Course Description
Spanish 1 introduces fundamental language skills: reading, writing, speaking, and listening in the target language. We will be focusing on basic vocabulary, present-tense verbs and essential grammar. Students will learn how to engage in short, simple conversation alongside various Spanish speaking countries culture, geography, and daily life. **No prior Spanish language experience needed.**

Student Supply List
Pencil.

Supply Fee: $35.00
Course Cost: $225.00
Monthly Installment: $25.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Exploring American Government
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Laura Lombardo
Class Skill Level: High School
1st Semester
Textbook: See Description

Course Description
Exploring Government by Ray Notgrass is a one-semester course for high school students. It explores the government of the United States from its beginning to the present, including the Biblical pattern for government and a study of the U.S. Constitution. Students will learn about the operations of federal, state, and local government, as well as issues facing our nation today, becoming better equipped to understand and be involved in our country's government. Weekly homework expected.

PLEASE NOTE: While the curriculum is written from a Christian worldview, the class itself is taught from a secular, inclusive perspective that welcomes thoughtful discussion and respects a variety of viewpoints.

The following books will be needed::

- *Exploring Government* (text book, 2016 3rd ed.)
- *We Hold These Truths* (2016 3rd ed.)

Supply Fee: $25.00
Class Cost: $140.00
Monthly Installment: $35.00

(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Cardboard Creations Lab: Build, Design, Create
Session 2: 10:30am-11:25am

Instructor's Name: Mrs. Laurie Tiemens
Class Skill Level: Middle School & High School
1st Semester

Course Description
What if your student could turn a simple piece of cardboard into something incredible—a working machine, a creative sculpture, or a clever solution to a real-world challenge? Cardboard Creations Lab is a hands-on, imagination-fueled class designed for middle and high school students who love to build, experiment, and think outside the box (sometimes literally!).

This class transforms an everyday material—cardboard—into a powerful tool for creativity, problem-solving, and design thinking. Students don't just make things; they learn how to think like builders. Each session introduces practical construction techniques and then challenges students to apply those skills in fun, open-ended ways.

Students will explore a wide range of building methods, including structural reinforcement, joints and connections, cutting and scoring techniques, hinges, moving parts, and simple mechanical systems. They'll learn how to make their creations stronger, more functional, and more visually appealing skills that translate into engineering, art, and real-world problem solving.

But this isn't a step-by-step craft class. Instead, students are given creative challenges that push them to experiment, adapt, and innovate. One week, they might design a bridge that can hold weight. Another week, they could build a marble run, a piece of wearable cardboard armor, or a device that solves a quirky "real-life" problem. There's no single "right" answer—just opportunities to test ideas, learn from mistakes, and improve designs.

The class environment is intentionally relaxed, encouraging students to take risks without fear of failure. Mistakes aren't just allowed—they're expected and celebrated as part of the creative process. This approach helps students build resilience, confidence, and a willingness to try new things.

Because students learn in different ways, lessons are designed to engage visual, auditory, and hands-on learners. Demonstrations, quick mini-lessons, and live builds are paired with plenty of time to create, test, and refine. Students also have opportunities to collaborate, share ideas, and draw inspiration from each other's work.

One of the biggest advantages of Cardboard Creations Lab is that it requires very little homework. Nearly all building happens during class time, where students have access to guidance, materials, and peer support. This makes it a great fit for busy families and students who already have full schedules—but still want a creative outlet.

Beyond the fun, this class develops valuable life skills. Students practice problem-solving, spatial reasoning, planning, and resourcefulness. They learn how to work through challenges, manage time

during projects, and turn abstract ideas into tangible results. These are the same skills used in fields like engineering, architecture, design, and entrepreneurship—just taught in a way that feels like play.

Parents love seeing their students excited to share what they've built. Teens love having a space where they can create freely without pressure or perfectionism. By the end of the course, students won't just walk away with a collection of cool projects—they'll leave with a new way of thinking: the ability to look at ordinary materials and see extraordinary possibilities. Sometimes, the simplest materials spark the biggest ideas.

This is a one semester class. Very little homework is required.

Student Supply List
Lined paper
writing utensil

Supply Fee: $25.00
Class Cost: $200.00
Monthly Installment: $50.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Personal Finance
Session 2: 10:30am-11:25am

Instructor's Name: Mrs.Esther Frankenfield
Class Skill Level: Middle School & High School
First Semester

Course Description
This course introduces students to foundational personal finance concepts through practical application and discussion. Students will explore topics such as budgeting, saving, spending, debt, income, and financial decision-making. The goal of this class is to equip students with the knowledge and habits needed to manage money responsibly and confidently in everyday life.

Topics may include:
Needs vs. wants
Budgeting basics
Saving and goal setting
Introduction to earning and income
Smart spending and comparison shopping
Basic understanding of debt and interest
No prior experience required.

Student Supply List

Students should have a notebook, pens/pencils, and access to a calculator.

Supply Fee: $15.00
Class Cost: $100.00
Monthly Installment: $25.00
(4 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26

Adulting 101: Real-Life Skills for Confident Teens
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs.Tracy Gisselquist
Class Skill Level: Middle School & High School
Textbook: See Description

Description
What if your teen could graduate high school already knowing how to manage their time, cook real meals, communicate clearly, and handle everyday responsibilities with confidence? *Adulting 101* is a practical, engaging class designed to do exactly that.

This course equips high school students with essential life skills they need to thrive beyond the classroom—whether they're heading to college, entering the workforce, or pursuing a path of their own. Instead of learning by trial and error, students gain hands-on experience in a supportive, low-pressure environment where mistakes are part of the process and growth is the goal.

Each week, students explore real-world topics that truly matter. We begin with time management and goal setting, helping teens learn how to balance responsibilities, avoid overwhelm, and follow through on their plans. Students practice breaking big goals into manageable steps, prioritizing effectively, and building routines that work for their individual needs—including strategies that support ADHD and other neurodivergent learning styles.

The course then moves into communication skills—how to hold conversations, advocate for themselves, navigate conflict, and make a strong impression in both personal and professional settings. These are lifelong skills that impact every area of life, yet are rarely taught directly.

Students will also develop confidence in independent living. They'll learn how to prepare simple, affordable meals, plan a week's worth of food, and navigate a grocery store without overspending. Lessons include reading labels, comparing prices, and making smart choices on a budget.

We don't skip the everyday essentials. Teens will learn how to manage laundry, maintain a clean and functional living space, and develop systems that keep chores from piling up. These practical, step-by-step lessons are often eye-opening and immediately useful.

As students begin thinking about their future, we guide them through job applications and basic workplace skills. They'll learn what employers look for, how to present themselves professionally, and how to approach opportunities with confidence. The course also introduces the logistics of independence, including housing, budgeting for living expenses, and transportation options such as driving, public transit, and ridesharing.

Finally, students will learn essential first aid and safety basics, equipping them to respond calmly and effectively in common emergency situations.

What sets *Adulting 101* apart is its interactive, student-centered approach. Lessons engage a variety of learning styles—visual, auditory, and hands-on—through role-playing, real-life simulations, collaborative challenges, and practical exercises that make learning stick.

Parents appreciate that this class fills in the gaps traditional education often leaves behind. Teens appreciate that it's genuinely useful—and even fun.

By the end of the course, students won't just know what to do, they'll feel confident doing it. They'll leave with practical skills, greater independence, and a clearer understanding of how to navigate the responsibilities of adulthood.

This is a full-year (2-semester) high school class. Homework is required.

Supply Fee: $25.00
Course Cost: $450.00
Monthly Installment: $50.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Studio Art: Printmaking & Visual Communication
Session 3: 12:30pm-1:25pm

Instructor's Name: Mrs. Carina Wheat
Class Skill Level: Middle School & High School
Full Year

Course Description
This full-year studio art course explores printmaking as both a fine art tradition and a powerful tool for visual communication. Students will learn foundational techniques including relief printing, monoprinting, collagraph, stencil/screen methods, and experimental processes. Emphasis is placed on craftsmanship, composition, contrast, symbolism, and personal voice.

During the second semester, students expand their work into mixed media, publication design, and concept-driven projects. Students maintain a process journal, participate in critiques, study historical and contemporary print artists, and develop a cohesive final portfolio.

Supply Fee: $75.00
Course Cost: $315.00
Monthly Installment: $35.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Cooking Level II
Session 4: 1:30pm-3:00pm

Instructor's Name: Ms. Sandy Dixon
Class Skill Level: Middle School & High School
Full Year

Class Description
This hands-on cooking class introduces students to basic kitchen skills, food safety, and simple recipe preparation in a fun and supportive environment. Students will learn how to follow recipes, measure ingredients, and prepare a variety of dishes while gaining confidence in the kitchen. Emphasis is placed on teamwork, creativity, and trying new foods. Throughout the course, students will explore different types of cuisine and develop practical skills they can use at home. - **Previous students only, unless special arrangments are made with Ms. Sandy.**

Supply Fee: $50.00

High School Biology and Labs
Session 4: 1:30pm-3:00pm

Instructor's Name: Mrs.Laura Lombardo
Class Skill Level: High School
Full Year
Textbook: See Description

Description:
Friendly Biology opens the world of biology to high school students in a gentle, non-intimidating manner. Students are led through meaningful, well-written lessons and lab activities with the goal of attaining a greater respect for the beauty and complexity of living things.

Topics covered include:
Characteristics common to all living things;
Basic chemistry as it pertains to living things;
The roles of carbohydrates, lipids, proteins and nucleic acids in living systems;
Cytology;
Mitosis and meiosis;
Chromosome duplication and protein synthesis;
The importance of pH in living systems;
Methods of reproduction;
Mendelian genetics;
Taxonomy;
A survey of members of each kingdom of living things with emphasis placed on various classes and orders of importance;
An overview of all body systems of humans and
Ecology of living things.
28 lessons with lab activities included.

With a goal of teaching high school students the complexity of living things in a gentle, non-intimidating manner, this course goes above and beyond expectations. Presenting a traditional scope of study, sans evolution and natural selection, this text contains 28 lessons, vibrant illustrations, and lab activities for a complete, year-long course. Topically, students will study the characteristics of living things; basic chemistry as it pertains to living things; the roles of carbohydrates, lipids, proteins, and nucleic acids in living systems; importance of pH in living systems; cytology; mitosis and meiosis; chromosome duplication and protein synthesis; reproduction (asexual and sexual); genetics; taxonomy, including a survey of each kingdom with an emphasis on various classes and orders; an overview of human anatomy and physiology; and the foundations of ecology.

The **Student Textbook** is available in a **Christian Worldview version and a Secular version.** Worth mentioning, content is marginally different (scripture references in the Christian Worldview version). Co-ops or classroom students could use the books concurrently with success. Lessons are expected to take one week to complete, with readings from 10-25 pages, so some lessons may need additional time to complete. Textbook readings are accompanied by lab activities.

Labs are designed to be homeschool friendly and use household or easily found items. A sampling of lab experiences includes osmosis with eggs and vegetables, creating a cell model, determining pH, and making butter and yogurt. You will need internet access for the Taxonomy activity. The Textbook includes space for documenting the lab activities although students may wish to make a science notebook. Supplemental lesson videos are available at www.friendlybiology.com for an additional fee. *No microscope* is required for this course.

ISBN Secular Textbook: 9781545277355
ISBN Christian Worldview Textbook: 9781544223681

Supply Fee: $50.00
Course Cost: $450.00
Monthly Installment: $50.00
(9 installments DUE): 9/4/26, 10/2/26, 11/6/26, 12/4/26, 1/8/27, 2/5/27, 3/5/27, 4/9/27, 5/7/27

Lunch & Recess

Lunch and recess are held each week from **11:30 AM–12:30 PM**. This time allows students to eat, play, and socialize. Students must **eat lunch before going outside**, and students will not be dismissed to the playground until **11:45 AM**. Before going out, students must clean up their lunch area, put away their belongings, and dress appropriately for outdoor play. Please do not pack foods containing **nuts or seafood**, as we have several students with severe (EpiPen-level) allergies.

Once a month we have **Pizza Day**. Students may purchase **cheese pizza for $3.00 per slice** or **pepperoni/sausage (rotating) for $3.50 per slice**. All proceeds support the **HOB+ Enrichment Program**, helping offset rent and provide scholarships.

We also offer **Laurie's Lunches** on non-pizza Fridays. Lunches must be pre-ordered the week before. A sign-up sheet will be available on the sign-up table each week, and a reminder will be posted in the Facebook Members group. The cost is a suggested donation of **$8.00 per meal**.

Study Hall

Study Hall is provided as a place to go if a student has a session open between enrolled classes. Students should come to the study hall prepared to engage in studies or quietly read. When in Study Hall, they should be quiet and courteous to other students completing their work. Students may ask instructors for assistance as needed. Students between classes may not go outside or wander around BBC. Study Hall for Sessions 1 and 4 are reserved for students of volunteers or instructors unless special arrangements have been made.

Nursery Use

The nursery is available from **9:30 AM–2:30 PM** for families participating in HOB+ EP. Children must be registered for nursery during class enrollment in order to use this space. must always be supervised by a parent or responsible adult. Keep the nursery clean by cleaning up after yourself, putting all toys away before leaving, using the provided changing pads, and wiping down tables and surfaces after use. Due to severe allergies within our community, nuts and seafood are not permitted in the nursery. If you notice any broken or damaged items, please report them to a coordinator.
